

3D Design

Model:

Polygonal modeling

Surface modeling

Digital sculpture

Rendering

Product price:

€0.00 tax excluded

Product codes:

PS007-04

-- BUY NOW --

Synthetic features:

Thanks to our know-how and CAD technologies, we can create detailed models for use in production. We are very attentive to protecting innovations, also ensuring patent and design registration. [? Contact us for a custom quote](#)

Product description:

Our process allows for the creation of digital three-dimensional models of objects/products. With our expertise and CAD (Computer-Aided Design) technologies, our designers can create detailed models, which are then used for the production of prototypes or finished products.

Our 3D design enables greater precision, flexibility, and significant time and cost savings compared to traditional design methods.
